Honor of Kings Community Token (HOKCT)

HOKCT White Paper

v. 1.0.

EXECUTIVE SUMMARY

The Honor of Kings Community Token (HOKCT) is a community-centered cryptocurrency project designed to introduce users to crypto through a safe, supportive, and engaging platform. By leveraging partnerships with innovative AI tools, this project empowers its members to create unique digital art, game soundtracks, and videos in a fun, collaborative environment. With a focus on education, accessibility, and creative empowerment, HOKCT provides a welcoming entry point into the crypto space with minimal financial risk.

Through a well-structured tokenomics plan, a detailed roadmap, and ongoing community engagement, HOKCT is committed to long-term growth and transparency. Members will learn about crypto fundamentals while gaining hands-on experience with AI-driven creative tools, creating a unique blend of art, technology, and crypto adoption.

INTRODUCTION

Crypto adoption is rapidly increasing but remains inaccessible to many. The HOKCT project is designed to bridge this gap, offering a low-risk introduction to crypto within a supportive gaming community. As only 5% of the global population currently uses crypto, it is projected that this number will grow to 50% within the next decade. HOKCT aims to be part of this expansion by fostering a safe, inclusive platform where users can explore crypto and AI's potential.

Our community model emphasizes member protection and support. Using platforms like BuddyBoss, we avoid bot infiltration and create a secure alternative to traditional community platforms. Additionally, our community extends to educational resources, where experienced and new users share knowledge, explore AI applications, and build a collective understanding of the evolving digital space.

# PROJECT MISSION AND VISION

MISSION

The mission of HOKCT is to make crypto accessible to everyone, particularly focusing on the gaming community. Through partnerships with AI platforms, we provide members with tools to create game-inspired digital art, soundtracks, and videos, allowing for creative expression within the crypto ecosystem.

VISION

As technology advances, HOKCT is committed to integrating the latest in AI and crypto. We envision a collaborative community where users are educated and empowered to create, with our platform evolving to introduce cutting-edge tools that expand the creative and financial possibilities of cryptocurrency.
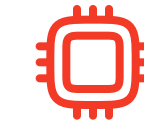

Tokenomics

Total Token Supply
2.4 billion tokens

Pre-Sale

960 million tokens designated for early supporters.

Liquidity Pool

960 million tokens, plus any unsold pre-sale tokens, locked and released at 10% per year over ten years.

Development

240 million tokens reserved for ongoing project growth and platform improvements.

Team Allocation

240 million tokens locked and gradually released, demonstrating the team's commitment to the project's success.

Purchase Limits

Minimum purchase of 20,000 tokens ($5).

Maximum purchase of 2,000,000 tokens ($500).

Use Case and Token Utility

AI-Powered Content Creation

HOKCT holders have exclusive access to AI tools for creating game-inspired NFTs, soundtracks, and videos. Members can mint, showcase, or trade these digital creations within the community.

Governance

A community council will be introduced in Q3, allowing token holders to participate in decision-making processes, such as voting on partnerships, feature rollouts, and community initiatives.

Educational Resources

Token holders benefit from resources that teach them to buy, store, and use crypto securely, protecting new users from potential scams and fostering safe engagement.

Community Engagement

Members access exclusive tools and connect with others in a secure, interactive environment focused on learning and creativity.

ROADMAP

Q1
(PRE-SALE AND COMMUNITY SETUP):

Launch pre-sale on PinkSale, finalize foundational documents (Whitepaper, Tokenomics, and Roadmap), and establish a secure social platform using BuddyBoss.

Q2-Q3
GROWTH AND AI INTEGRATION

Roll out educational resources, host design awards for community-generated content, and introduce AI-driven content creation tools in partnership with platforms like Gemini, Suno, and Plazmapunk.

Q3-Q4
COMMUNITY GOVERNANCE AND EXPANDED OFFERINGS)

Launch the community governance council, introduce new AI partnerships, and continue educational resource expansion. A directory of gaming-related businesses and an NFT/AI marketplace will also be integrated.

Refer to the detailed roadmap for more information on the timelines and milestones planned for the first two years

TECHNICAL DETAILS

The HOKCT ecosystem is built on the following platforms and tools to ensure a secure, accessible, and user-friendly experience:

ORION TOOLS

Manages the HOKCT token, providing essential infrastructure for token creation and distribution.

PINKSALE

Used for the pre-sale, equipped with KYC compliance features for secure transactions.

AI PARTNERSHIPS

Collaborations with Gemini, Suno, and Plazmapunk offer members tools for creating NFTs, soundtracks, videos, and game-related content.

WORDPRESS AND BUDDYBOSS

Support a secure community platform, enabling engagement and content sharing without bot interference.

KINSTA HOSTING

Provides reliable, scalable hosting for the HOKCT Community website and resources.

Revenue and Sustainability Model

♡ Community Donations

Voluntary donations support ongoing development, enabling users to contribute directly to the platform's growth and sustainability.

♂ Affiliate Partnerships

Partnerships with reputable crypto services allow HOKCT to earn commission on referrals, reinvesting revenue into the project to enhance educational resources, infrastructure, and community rewards.

▢ Marketplace Sales and Advertising

The community marketplace features member-created NFTs and digital assets, generating transaction fees that support platform sustainability. Advertising partnerships with trusted companies will also help cover operational costs.

Team Overview

The HOKCT team comprises professionals with expertise in blockchain development, web design, marketing, and community management:

Core Roles:

◆ Founder
◆ Developer
◆ Web Designer
◆ SEO Specialist
◆ Marketing Specialist
◆ Social Media Manager

The team's tokens are vested over a 10-year period, reflecting a long-term commitment to the project's success. Additional details will be included in the finalized version.

Community and Governance

In Q3, HOKCT will introduce a governance council, where token holders can participate in decisions such as feature development and strategic partnerships.

This approach enables the community to directly impact the project's future, fostering a sense of ownership and trust. Anti-spam and no-bot policies ensure that governance and community spaces remain secure and authentic.

Legal and Compliance

HOKCT will ensure regulatory compliance through KYC verification on PinkSale, where all team members will complete KYC requirements to establish transparency and legitimacy. Adhering to local regulations and ethical practices, HOKCT prioritizes community trust and security.

CONCLUSION

The Honor of Kings Community Token (HOKCT) represents a unique entry into the world of cryptocurrency, combining education, creativity, and community governance. By introducing users to crypto and AI possibilities in a safe, inclusive environment, HOKCT offers an accessible way for individuals to explore the digital future.

Focused on long-term growth, transparency, and community-driven development, HOKCT empowers users to learn, create, and actively participate in the evolving world of cryptocurrency.

WE INVITE YOU TO JOIN HONOR OF KINGS COMMUNITY TOKEN ON THIS JOURNEY, WHERE CREATIVITY, TECHNOLOGY, AND LEARNING UNITE WITHIN A SUPPORTIVE COMMUNITY.
